

Selected memberships of the Schaeffler Group

The Schaeffler Group is a member of industry and interest groups and other organizations with a social mission. The following list illustrates examples of memberships in which company representatives participate through projects or working groups. The associations listed address key sustainability issues as a general association or within corresponding expert groups. The memberships presented below are strategically significant for the company or its industry and are related to the twelve materiality aspects. For a better overview, no presentation at local level has been made. The list also meets the requirements of indicator 102–13 of the Global Reporting Initiative Standard.
