

## Selected memberships of the Schaeffler Group

The Schaeffler Group is a member of industry and interest groups and other organizations with a social mission. The following list contains selected memberships that allow company representatives to participate in projects or working groups. As an industry association or in corresponding committees, the associations listed address issues associated with sustainability. These memberships are strategically significant for the company or its sector and are related to the 13 aspects from the materiality matrix. For a better overview, no presentation at local level has been made. The list also meets the requirements of Indicator 2–28 of the Global Reporting Initiative. Additional information can be found in the German [Lobbying Registry](#).
